Ogudu, Lagos State, 100242, Nigeria

Front-end engineer skilled in creating responsive web applications with HTML, CSS, JavaScript, and modern frameworks.

Seeking a full-time role to deliver efficient, user-friendly solutions, collaborate with a talented team, and grow technical expertise on innovative projects.

Work Experience

Front-end Engineer

Jul 2024 - Present

[Paysnug Technology Limited](#) | Smart Villa, Adjacent Splash FM Felele, Ibadan, Nigeria.

Front-end engineer at Paysnug Technology Limited, focused on building responsive, user-friendly web applications. Skilled in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React.js, I collaborate with teams to deliver seamless, innovative digital solutions.

- Contributed to UI/UX improvements, applying best practices in design and interactivity for a polished final product.
- Collaborated closely with cross-functional teams to deliver innovative, user-focused digital solutions.
- Optimized front-end code for performance and responsiveness, ensuring seamless functionality across devices
- Test and debug for cross-browser/device compatibility

Front-end developer Intern

Apr 2024 - Jun 2024

[8thGear Hub & Venture Studio](#) | 41 C M D Rd, Magodo, Ikeja 105102, Lagos

Collaborated with a cross-functional team of 5 to design and develop website.

- including Spotify Clone, Expense Tracker Application, Innkeeper LMS and Digiplus.
- Designed and developed a series of web application including Viatours Website, Text Counter, and Portfolio.
- Utilized GitHub version control to manage projects.
- Cross-browser compatibility

Data Analysis/Project Enforcer

Apr 2022 - Feb 2024

[Ikeja Electric](#) | Lagos, Nigeria

Identify and escalate consumers who are illegally connected to electricity supply on the distribution and to identify individuals or entities not registered on the company's network but connected to the network with no evidence of payment or vending history and escalating such report to the backend.

- Update customer details on the Network and provide accurate and timely feedback.
- Prepare and submit daily escalation reports.
- Ensure qualitative and quantitative data submission.
- Acquisition and investigation of field data.
- Compilation and analysis of field data.
- Usage of Microsoft 365 in managing Unit Work/Activities
- Usage of Company Enterprise Resource Planning Platform.
- Data Analysis
- Consolidation of report for the entire Squad.
